Active researches of history of political parties of Russia have allowed to start creation of new encyclopedias and biographic dictionaries. Researches of socialist parties and the anarchical organizations have begun. The research theme is very important and actual. Socialists and anarchists were a radical part of political elite of the country. This elite has been destroyed by bolshevist regime. We feel absence of this elite till today. Today in our country isn't socialist and social-democratic parties. These parties are the most powerful force. This force has made much for development of democracy and protection of human rights. For fighters with a communistic regime it has appeared the main thing in ideology of their parties. At definition of a place of socialists and anarchists in the history of Russia XX century it is impossible to ignore that fact that civil war was struggle of socialists with red and white. Eser Argunov has told that for socialists it there was a struggle against "two bolshevism". Struggle against "the bolshevism at the left" (communists), and against "the bolshevism on the right" (white guards). Argunov spoke: "The renaissance of Russia can go only through democracy. Democracy will manage to cause to life and to organize forces of the country". It is impossible to ignore this fact of times of the beginning of Civil war.
