

Fando R.A.

Efroimson's archive is a new unique source on the history genetics

Annotation

The article is devoted to Fund 2024 (Archive of the RAS) containing materials on the history of Russian human genetics. Documents belonging to prominent Russian geneticist Efroimson are kept in the Fund. Presented materials are introduced for the first time and allow to reconstruct history of human genetics during the periods of its rise and fall.

В.П. Эфроимсон. Архив РАН. Ф. 2024. Оп. 1.
